Class X, CBSE Board, 2016

CGPA- 8.6/10

INTERSHIP EXPERIENCE

TXON— Web Developer Internship

March 2023-Present

Developing the websites using HTML, CSS, JavaScript, and deploy the site to the server. I work on completing the particular tasks with a team to create visually appealing and functional websites. In this internship, I am learning about advance web development and about modern JavaScript, Git & Github and other technologies.

ACADEMIC / PERSONAL PROJECTS

• Car Rental System: - Website Application

This website was created to provide car rental services to the user in which they could rent car and also to simplify the process of renting a car for customers. The website provides an interface for searching, comparing, and reserving cars. I designed the website using HTML, CSS, Node.js, Express.js, JavaScript, and MongoDB database.

•Yolo Cafe:-Website

This system's goal is to assist cafe managers in running their business while also making it easier for consumers to place orders and get it delivered to their home. I developed the website with the help of HTML, CSS, JavaScript, Node.js, and MongoDB database.

• Know your Weather: - Web Application

I created a weather application using Rest APIs, JavaScript, Node.js and Express.js where users can find the weather information of any city with the help of an API service.

TECHNICAL SKILLS

Programming languages/Skills: JavaScript, Node.js, Express.js, HTML, CSS, C, C++, Core Java, Pug.js.

Database: MongoDB and MySQL.

Other Software/Tools: - Visual Studio, Github, Premiere Pro and Replit.

EXTRA-CURRICULAR

- Conducted college technical fest workshop and event during my 1st semester.
- I used to teach HTML, CSS, C, and C++ at Teacher On. Online platform where you can find local tutor, online teachers, and teachers to help with tutoring.
- Captain of the college tech hunt fest team during my 8th semester.
